Qualifications Profile

Highly motivated UX Designer and Front-End Developer with a love for all things creative and innovative new web technologies. Passionate about data driven design, intuitive interfaces and responsive design principles that lead to a demonstrably better user experience. Interested providing a consistent experience across all devices

Professional Experience

2010-Present

NINE // UX DESIGNER & FRONT-END DEVELOPER

Key Achievements

- I. Took leading roles on projects to effectively manage collaboration with developers and communicate client goals to ensure those goals were met.
- II. Worked with the owners of Panini Creations to conceptualize and develop their online presence, utilizing ExpressionEngine as the content management system.
- III. Built lasting business relationships with my clients.

2015-2016

YA // UX DESIGNER & FRONT-END DEVELOPER

Key Achievements

- I. Selected to productize their Refer-A-Friend program concept. Responsible for the UX Design, Front-End Development and visual design.
- II. Utilized mobile first design and user centric approach to provide cross device consistency and ease of use to promotions and product offerings.
- III. Collaborated with development team to convert semi-static HTML5/CSS3 prototypes into a standardized Single Page Application template in Angular.js and eliminated a great deal of back-end coding requirements developer workload.

Professional Experience (Continued)

2008-2010

PERISCOPE // PRODUCTION ARTIST

Key Achievements

I. Selected to be the production artist responsible for the layout design of the 2010 ParAide catalog, working closely with the lead designer and project manager to complete the project on schedule.

II. Earned a position on the layout design team for UnitedHealthcare's Medicaid rebranding campaign, and had a number of pieces chosen to be design templates nationwide.

Education
